

Retire United Packet

United Way of Collier and the Keys' **Retire United** initiative is tailored for retirees or those nearing retirement who value the role of philanthropy and volunteerism in fortifying our community. As adults shift from careers to retirement, many find themselves with a lifetime's worth of knowledge and experience along with increased time and resources. This enables them to contribute their wisdom and skills to organizations and causes they are passionate about.

As you embark on the next phase of your life, we extend an invitation to continue embodying the Live United spirit throughout your retirement. Your wealth of skills and experiences holds immense value for future generations, and we're here to assist you in discovering fulfilling ways to remain actively engaged in our community.

Benefits of engagement:

- Volunteer as a way to make new friends and help others. Connect with meaningful volunteer opportunities that match your interests and skills.
- Support UWCK's work in education, financial stability and health.
- Receive invitations to events and educational programs or services that matter to you.
- Stay connected. Subscribe to the monthly United Way of Collier and the Keys e-newsletter.

By actively participating in Retire United and other UWCK events and experiences, you will have opportunities to continue to engage in your community, contribute your expertise and talents in support of UWCK programs, and interact with other retirees who contribute their time and strengths toward building a strong and inclusive community.
